

Ethiopian Students Association established in Japan

The Ethiopian students studying in different universities of Japan have launched a new “Ethiopian Students Association” with the prime objective of serving as a forum for educational and socio-cultural discussion, technology transfer and creating a culturally enlighten community at Japanese Universities in general by promoting Ethiopia.

Ethiopian Ambassador Dr. Markos Tekle praised students for their active roles to establish the new association, urging them to bridge our institutions with Japanese counterparts.

While adopting the constitution of the association, the students in attendance expressed their commitment to work in collaboration with the Ethiopian embassy to play their part in transferring technology, facilitating the network between our education & research institutions to partner with and promoting our country to the Japanese society.
